Education

2019 - 2023

BS (COMPUTER SCIENCE)

GOVT. POST GRADUATE COLLEGE, MANSEHRA

CGPA: 3.60 / 4

Academic Projects / Experience

TRAFFIC MONITORING SYSTEM 2022 – 23

- Interactive web-based dashboard to manage traffic flow using YOLOX, DeepSORT (FYP – Group Project)
- An interactive '**Traffic Monitoring System**' for managing highway traffic activities such as real-time vehicle detection and tracking, vehicle counting and sorting, direction detection, and speed measurement, into a unified analytical dashboard.
- This web-based traffic management application employs two renowned object detection algorithms, specifically YOLOX and DeepSORT, as its core components.
- The application is developed using the Flask and Dash frameworks, enabling seamless integration of real-time traffic data, object detection, and tracking capabilities for efficient traffic flow management.

Courses/Certificates

Crash Course on Python March, 2023 – July, 2023

Professional Certification authorized by **Google** offered through **Coursera**
